Professional and Teaching Experience

Machine Learning Researcher, GENSYN

Oct 2025

→ Jul 2026

- Led research on **model merging**, **Mixture-of-Experts**, **LLMs routing**, and **decentralized ML**, resulting in **ICML** and **ICLR workshop publications** [🔗](#) [🔗](#)
- Led development of **IR3DE-AXL**, an **open-source decentralized inference system** that routes requests to domain expert LLMs hosted by remote peers using Gensyn's AXL P2P network [🔗](#)
 - IR3DE-AXL allows decentralized peers to serve experts through a unified, Textual-based chatbot UI
 - Communication happens through AXL, a P2P decentralized networking layer that lets agents discover and communicate directly, exposing an HTTP API for fire-and-forget messaging and network topology discovery
 - Each peer locally constructs a lightweight IR3DE router to automatically select the most appropriate domain expert in the network for any given prompt. Peers can join or leave at any time while dynamically updating the router, and autonomously decide whether to exclude any expert from IR3DE routing by inspecting the statistics accessible through the UI
- Published technical articles on **decentralized LLMs inference routing** and **upcycling** of dense experts into **Mixture-of-Experts** architecture [🔗](#) [🔗](#)
- Invited to speak at two Gensyn X Space events [🔗](#) [🔗](#), each later featured in a Gensyn article [🔗](#) [🔗](#)

Postdoctoral Fellow & Software Engineer, BASQUE CENTER FOR APPLIED MATHEMATICS (BCAM)

Nov 2024

→ Oct 2025

- Led development of the **Act.AI ERC proof-of-concept** (PI: Prof. N. Quadrianto)
 - Developed **Helios**, a framework for creditworthiness prediction on heterogeneous financial tabular data with LLMs and Extreme Gradient Boosting (XGBoost), in collaboration with the University of Sussex. Open data: ACS socioeconomic records by US states; closed, private data: from independent bank institutions
 - Implemented Low-Rank Adaptation (LoRA) based Parameter-Efficient Fine-Tuning (PEFT) techniques for post-training customer personalization

Senior Researcher, PREDICTIVE ANALYTICS LAB, UNIVERSITY OF SUSSEX

May 2024

→ Oct 2025

- Led research on mitigating biases caused by **spurious correlations** in **federated learning**
- Developed **FedDiverse**, a new client selection method to improve performance by encouraging collaboration between diverse clients with minimal overhead, in collaboration with ELLIS Alicante

MSc Thesis Supervisor, POLYTECHNIC UNIVERSITY OF TURIN

Sep 2022

→ Oct 2024

- Clustered Federated Learning project, resulted in an **ICML 2025** publication
- Federated Visual Geo-Localization project, resulted in a **FedVision @ CVPR 2024** publication

Teaching Assistant, POLYTECHNIC UNIVERSITY OF TURIN

Sep 2022

→ Sep 2023

- Graduate courses: • Machine Learning and Deep Learning • Advanced Machine Learning • Data Analytics and Artificial Intelligence • Web Applications I
- Undergraduate course: • Computer Science

Teaching Collaborator as an Undergrad, POLYTECHNIC UNIVERSITY OF TURIN

Sep 2018

→ Mar 2019

- Undergraduate courses: • Algorithms and Programming • Mathematical Analysis I • Mathematical Analysis II

Education

Ph.D. in Computer and Control Engineering, VISUAL AND MULTIMODAL APPLIED LEARNING LABORATORY (VANDAL), POLYTECHNIC UNIVERSITY OF TURIN

Nov 2021

→ Jul 2025

- Thesis title: **Addressing Heterogeneity in Federated Learning for Real-world Vision Applications**
- Publications at international peer-reviewed conferences and workshops, including **ICML**, **NeurIPS**, **CVPR**, **IROS**, and **WACV**, and to an **IEEE journal**
- Advisor: Prof. B. Caputo · Polytechnic University of Turin

ELLIS Ph.D. Program - Academic Track, EUROPEAN LABORATORY FOR LEARNING AND INTELLIGENT SYSTEMS (ELLIS)

Nov 2021

→ Jul 2025

- Primary Host: Prof. B. Caputo · Polytechnic University of Turin
- Exchange Host: Prof. N. Quadrianto · University of Sussex

Visiting Period for the ELLIS Exchange, UNIVERSITY OF SUSSEX, EUROPEAN LABORATORY FOR LEARNING AND INTELLIGENT SYSTEMS (ELLIS)

May 2024

→ Oct 2024

- Research Advisor: Prof. N. Quadrianto · University of Sussex

Visiting Period , ELLIS ALICANTE, EUROPEAN LABORATORY FOR LEARNING AND INTELLIGENT SYSTEMS (ELLIS)	Sep 2024
◦ Research Advisor: Prof. N. Oliver · ELLIS Alicante	
MSc in Data Science and Engineering , POLYTECHNIC UNIVERSITY OF TURIN	Oct 2019
◦ Final grade: 110/110 cum laude	→ Oct 2021
◦ Thesis title: On the Challenges of Class Imbalance in Federated Learning for Semantic Segmentation , extended into an IROS publication	
BSc in Computer Engineering , POLYTECHNIC UNIVERSITY OF TURIN	Oct 2016
◦ Final grade: 108/110	→ Jul 2019
Young Talent Project , POLYTECHNIC UNIVERSITY OF TURIN, CRT FOUNDATION	Oct 2016
◦ Study program of excellence open only to the top 2% students for the A.Y. 2016/17	→ Jul 2019
High School Diploma , LICEO SCIENTIFICO STATALE M. CURIE GIULIANOVA	Sep 2011
◦ Final grade: 100/100 cum laude	→ Jul 2016

Publications

E. Fanì , O. Ersoy. “ <i>Training-Free Dynamic Upcycling of Expert Language Models</i> ”. Advances in Neural Information Processing Systems, 2026. Previously presented at the ICLR workshop on Scaling Post-training for LLMs (SPOT), 2026.	NeurIPS26
E. Fanì , O. Ersoy. “ <i>IR3DE: A Linear Router for Large Language Models</i> ”. Resource-Adaptive Foundation Model Inference workshop of the International Conference on Machine Learning, 2026.	AdaptFM ICML26

L. Fantauzzo*, E. Fanì *, et al. “ <i>FedDrive: Generalizing Federated Learning to Semantic Segmentation in Autonomous Driving</i> ”. IEEE/RSJ International Conference on Intelligent Robots and Systems, 2022.	IROS22

*Equal contribution.

Selected Honors and Awards

Invited to Present at the Flower AI Summit, Organized by Flower AI 🔗	Apr 2026
Presenting the Research Paper: TRAINING-FREE DYNAMIC UPCYCLING OF EXPERT LANGUAGE MODELS	
Outstanding Reviewer award at ECCV24	Sep 2024
EUROPEAN CONFERENCE ON COMPUTER VISION 2024, EUROPEAN COMPUTER VISION ASSOCIATION (ECVA)	

Skills

- **ML & Research:** Efficient LLM Inference, Decentralized Systems, Peer-to-Peer Systems, Data Heterogeneity, Tabular Machine Learning, Supervised Learning, Semi-supervised Learning, Unsupervised Learning, Model Evaluation and Benchmarking, Domain Generalization and Robustness, Closed-form Classifiers/Ridge Regression, Mixture-of-experts, LLM Inference Routing, Model Merging, Transformers, PEFT, LoRA, LLM Post-Training, Federated Learning, Decentralized Learning, Distributed Learning, Semantic Segmentation, Image Classification, Domain Adaptation, Numerical Optimization, Computer Vision
- **Programming & Scripting:** Python, PyTorch, NumPy, scikit-learn, Weights & Biases, Matplotlib, Textual, JAX, FedJax, Haiku, Flax, Flower, C, HTML/CSS/Bootstrap, ReactJS, Vite, Java, C++, Bash, MATLAB, JavaScript, PHP, R
- **Data & Distributed Systems:** Apache Spark, Hadoop, SQL
- **Systems & Infrastructure:** Linux, Git, HPC clusters, Slurm, Kubernetes, AXL P2P networking
- **Languages:** Italian (native), English (professional), Spanish (elementary)
